ANNUAL REPORT
OF THE
CHIEF OF FIRE DEPARTMENT.

NEWMARKET, N. H., Feb. 16, 1895.

The annual report of the Fire Department for the fiscal year ending February 15, 1895, is herewith presented, with a statement of details of fires and alarms during the year, the probable cause of the same, the approximate loss, and insurance paid on property damaged, the condition of the property in charge of this department, with a list of the same, a statement of repairs and improvements made during the year, and the present organization of the department.

FIRES AND ALARMS.

Total number of fires and alarms, 10—8 for fires in town, 2 for fires in Durham.

LOSSES AND INSURANCE.

The fires have resulted in a loss of \$18,623. The amount of insurance paid on account of property damaged or destroyed, \$12,059.

FIRE RECORD.

Statement of details of fires, alarms, losses and insurance for the year ending February 15, 1895:

The amount of losses and insurance given are as reported to the Clerk of the Board of Engineers by owners of property damaged and insurance agents.

March 11, 1894, 12.05 A. M. Fire in F. H. Durgin block, Main street, which resulted in the total loss or damage of the following property:

F. H. Durgin block, total loss—Loss on building, \$2500; insurance paid on same, \$2000; loss on contents of building, \$3800; insurance paid on same, \$2000.

B. F. Haley block, total loss—Loss on building, \$2400; insurance paid on same, \$1500. Tenants of Haley block—J. M. Caswell, stock, total loss, \$2800; insurance paid on same, \$1200. G. A. R., loss, \$300; insurance paid on same, \$203.

Barnard tenement block—Damage to building, \$2000; insurance paid on same, \$1950. Tenants' goods somewhat damaged by removal.

Bank block—Damage, \$375; insurance paid on same, \$300. Some of tenants' goods were slightly damaged.

Mrs. Walter Wiggin, dwelling house—Damage, \$1400; insurance paid for same, \$1400. Tenants—Felix Clement, goods damaged, \$250; no insurance on same.

Small wooden stable, owned by Mrs. Walter Wiggin, destroyed—Loss, \$200; insurance paid, \$100.

Barnard brick block—Damage, \$75; insurance paid on same, \$50. E. P. Pinkham, tenant, goods damaged by removal, \$500; insurance paid on same, \$300.

The cause of the fire was an overturned lighted lamp in the tenement over F. H. Durgin's grocery store.

April 15, 6.15 P. M.—Fire alarm was rung in for fire in Carpenter Brothers' wood lot in Durham.

July 3, 10.30 A. M.—Fire in barn of Charles H. Smith, on Bayside road. Barn and cowsheds were destroyed. Loss on buildings, \$1500; insurance paid on same, \$500. Loss on contents of building, \$350; insurance on same, \$180.

July 13, 2.45 P. M.—Brush fire in rear of John Presson house, on Exeter street. Damage, slight.

September 5, 12.40 A. M.—Fire alarm rung in for fire in barn and slaughter house in Durham, owned by F. I. Ham.

October 3—Brush fire in wood lot owned by B. F. Haley. Damage, slight. Fire supposed to have been set by tramps.

December 26, 2.05 A. M.—Fire in house on Central street, owned by Joseph Dorr. Damage to building, \$51; insurance paid on same, \$51. Cause of fire, broken kerosene lamp.

January 10, 1895, 2.05 P. M.—Fire in Silver's Hotel, owned by Joseph B. Silver. Damage, \$122; insurance paid on same, \$122. Cause of fire, an overheated chimney.

January 25—Fire in house owned by Mrs. Charles Dockum, in new building district, North Side. Fire was extinguished without great damage to building. Cause of the fire was heated stove funnel in contact with woodwork.

January 29—Fire discovered at 9.05 A. M., in floor over Perkins' Express office, on Main street, and was extinguished with but slight damage; no insurance on building. Cause of fire was hot stove funnel in contact with woodwork.

FIRE APPARATUS.

The fire apparatus owned by this town when the present Board of Engineers came into office, and the condition of the same was as follows:—

Tiger, No. 1—Hand engine, with hose reel, four lengths of suction hose, 2 play pipes, 2 axes, bar, spanners and belts, 500 feet of rubber lined 2 inch hose, a few fire hats and coats. Condition—Engine had been in service 42 years and

with hose carriage was in condition for service, but needed some repairs. One length of suction hose worn out, 50 feet of hose damaged, 450 feet in good condition, hats and coats worn out.

Granite, No. 2—Hand engine, owned by Newmarket Manufacturing Co., equipment owned by town, 3 play pipes, 500 feet rubber lined 2 inch hose, 4 lengths of suction hose, spanners, belts, fire hats and coats, axe and bar. Condition—400 feet of hose in good condition, 100 feet damaged, hats and coats worn out, remainder of equipment in good condition.

LADDERS

One 50 foot extension ladder, broken in fire of March 11, 1894, and found to be useless for purposes intended, 6 single ladders without either spikes or hooks.

REPAIRS.

Damaged suction hose condemned and new purchased, 50 foot extension ladder condemned and new 45 foot, first class, East Cambridge extension ladder purchased, the six single ladders were furnished with spikes and four hooks, ladders were painted and are now stored in the carriage house of the Newmarket Hotel at an expense of \$1.50 per month for rent. Fire coats condemned and 10 army coats purchased at \$1.00 each.

NEW APPARATUS.

The approaching completion of the hydrant system contracted for by vote of the town, made the purchase of new fire apparatus imperative if the hydrants were to be made available for the extinguishment of fire. After much discussion and consideration the Board of Engineers decided to recommend to the Selectmen the immediate purchase of new fire apparatus, a list of which follows:—2 hose carts, 2000 feet of hose, 6 flexible play pipes, 2 single hydrant gates, 2 dozen Taber spanners, $\frac{1}{2}$ dozen hydrant wrenches, 2 dozen hose and ladder straps, and 2 reducers, and

it was also recommended that the proposal of the Revere Rubber Co., to furnish the same for the sum of \$1,325.00 be accepted. The apparatus recommended was purchased by the Selectmen Dec. 22. The hose purchased is guaranteed to stand a water pressure of 350 pounds to the square inch, and is warranted for four years; any of which may be found defective will be replaced without any expense to the town whatever.

NEW FIRE COMPANIES.

Two hose companies of 15 men each, and one hook and ladder company of 10 men have been formed from old engine companies. When a hook and ladder truck is purchased this town will have a first-class hydrant service fire department.

Equipment of Hook and Ladder Co.: One 45-foot East Cambridge extension ladder, 2 30-foot and 1 25 foot single ladders and 3 roof ladders fitted with spikes and hooks.

TIGER ENGINE CO., NO. 1, GRANITE ENGINE CO., NO. 2.

There were 40 firemen in each of these companies, but 20 men were taken from each company to form the two new hose companies and hook and ladder company. When engines are needed outside of hydrant service limits the members of hose companies will act as enginemen.

Equipment of engine companies: Two hand engines, axes, bars, 1000 feet of two-inch rubber lined hose, 2 hose reels, 5 play pipes, 8 lengths suction hose, spanners and belts, 10 firemen's overcoats. Tiger, No. 1, engine, with hose reel, is in poor condition. If kept in service, it should have a thorough overhauling. Granite Engine, No. 2, is in fair condition.

APPROPRIATIONS.

One thousand dollars was appropriated for all expenses of the Fire Department during the past year, by vote of the town; \$960 of that sum was required to pay the members of the engine companies, \$24 was paid to stewards of companies, which left \$16 available to pay for repairs to apparatus, fuel, lights, and all other incidental expenses of the department, a sum which, it is needless to say, was not sufficient for that purpose.

The force of the department now consists of 87 officers and men. With the new hydrant system of 50 hydrants in operation, a reduction of the force can be made, as the old hand engines will then be of little use, and it is believed that \$1000 will be sufficient the coming year to pay all members of the fire department, to pay for a hook and ladder truck, which is greatly needed, and for all other expenses of the department except hydrant service.

FRANKLIN A. BRACKETT,

Chief Engineer.

ACKNOWLEDGEMENTS. The thanks of the Board of Engineers are hereby tendered to John H. Griffin, Chairman of the Board of Selectmen, for the use of the Selectmen's room in the town hall for a headquarters. Also to the officers and members of the fire companies for their promptness and efficiency in the performance of their duties.

School Committee's Report.

The law requires the School Committee to make an annual report of the condition of the schools under their care. The facts necessary to determine such condition will be found in the reports made to us by the District Treasurer and Superintendent, which are annexed, and to which reference is now made.

CHARLES E. TASKER,
WILLIAM H. PAINE,
CHARLES V. DOE.

REPORT OF SUPERINTENDENT.

There is, perhaps, no subject relating to the prosperity and improvement of a community which creates larger or more imperative demands upon the services of all good and true citizens in its behalf than the one of the general education of all classes in the common schools. And the citizen who labors most earnestly and effectively to devise measures to promote and advance the vital cause of common school education among the people deserves best of the State, and would be worthy (if the custom of the ancient Romans was observed among us) of the gift of a civic crown. At the basis of our whole system of free government lies the system of our common schools—not private or sectarian, but common schools—wherein it was intended for the children of the high and the low, the rich and the poor, the good and the bad, the children of different races and nationalities (of which our country is made up), to meet together and receive that training in common, enjoy that equality of advantages, and be brought into that close contact which will promote mutual esteem and good fellowship, and be the surest prevention against future contest and divisions in communities, districts and States. This is the distinctive idea of our school system—to qualify for intelligent citizenship, not with equal ability, but with equality of advantages and with equal opportunity, for each to make the highest attainment of which the pupil is capable.

The question might properly be asked, Do our children receive that training in common, do they enjoy those equal advantages which it was intended they should enjoy? In answer, we would say that in looking back to the old district system we feel that marked progress has been made in that direction. Free text-books as well as better ones, better equipments in all lines of supplies, and better classification have produced good results. We still see defects and room for improvement, but that the tendency is upward and onward all who visit our schools admit. You have a course of instruction comparing favorably with that of any neighboring town or city, good buildings and sound practical instruction, and the results to be realized are to be determined by the interest shown by each individual tax-payer, and the amount of support received from the hands and hearts of the people. A school is just what the people create and demand it should be, and if you would secure the fullest benefits from your schools, you must sustain them with good word and good will as well as with sufficient pecuniary means. The public schools are largely what the town makes them. Every town exhibits its true character in its schools. If the standard of our citizenship is high, our schools will be of a high order.

We found at the commencement of the fall term that it was best to open another second grade primary, on account of the large number of pupils in the two schools of that grade, and were obliged to repair the lower room in the old stone school house and furnish the same with desks and seats, which has added considerable to the current expenses for the year. To secure a teacher, the school at Pine Hill was closed and Miss Leavitt transferred to the new school. We now have three schools of this grade, with an average daily attendance of about sixty pupils each. More attention has been given to music the past year than in years previous. A music teacher has been engaged, and one lesson a week in each of the nine schools of the village has been given.

Marked improvement in singing has been made, particularly in the primary and intermediate grades. It is to be hoped the same instruction will be continued the coming year, for the advantages of these exercises in cultivating the voice, giving the pupil command over the organs and the faculty of discriminating and expressing all the varieties of intonation requisite in good reading, are incalculably great, and were these the only ends to be gained, they would amply justify the continuance of this branch of instruction.

Our teachers, while gratefully acknowledging the sympathy of parents in their work, deeply feel the need of more of that aid. They wish to see them more frequently in the school room. They desire to know that they have their cordial confidence and co-operation in their great and responsible work. Such expressions of interest have a most happy effect on the school. The children feel that their parents are deeply concerned in their conduct and progress in study. A new inspiration is given them, and the labor of governing the school is much lightened. The laboring together with the teachers makes the best scholars, and many owe their success in life to this home encouragement.

In conclusion we would say, Let the improvement of our schools engage the attention of all. Let us each and all strive, not to carry our point merely, not to build up our own personal ends, but to accomplish that which will be of the greatest good for the greatest number. It is demanded of us that our interest be a broad and magnanimous one, enabling us to put aside self-interest and place every child, whomsoever he may be, in the limits of our town, under the care and instruction of efficient teachers, for the child of to-day may be the person upon whom our future will be established and maintained.

Respectfully submitted,

CHARLES E. TASKER,

Superintendent.

RULES AND REGULATIONS

FOR THE

PUBLIC SCHOOLS.

- I. The Public Schools of Newmarket shall be divided into the following grades: Primary, First and Second, Intermediate, Grammar, First and Second, and High.

SCHOOL HOURS.

- II. The time for opening and closing the village schools will, for the present, be regulated by verbal directions from the Board of Education. When there is a severe storm of rain or snow the Janitor will ascertain whether, in the opinion of the Board of Education, the weather is such as to render it imprudent for the children to attend school. If it is so considered he will strike three signals on the bell, each signal to consist of three rapid strokes of the hammer followed by an interval of rest. The "No School Signal" may be expected at 7.45 o'clock A. M. and 1 o'clock P. M. The signal at 7.45 does not affect the afternoon session. If, on account of the weather, the schools do not keep in the morning but do keep in the afternoon, the afternoon session for that day will be three and one-half hours in the High School building and three hours in the Primaries, with a suitable recess. The morning session will always close at 12 o'clock M. The teachers will not dismiss their schools nor change the school hours except by permission of the Board of Education.

ATTENDANCE AND GENERAL DUTIES OF TEACHERS.

- III. Teachers are required to be at their respective school rooms at least ten minutes before the commencement of the sessions, both morning and afternoon. A strict observance of the hours of commencing and closing is required. No teacher shall be absent from the school without the consent of the Board of Education. No teacher shall ever introduce a substitute into the school without the express sanction of the Board of Education. The teachers are required to observe and carry into effect all the regulations of the Board of Education in relation to the instruction, discipline and general management of the schools and to consult them freely on occasions of serious difficulty, to the end that all parties may work in unison and be of mutual support.

OPENING EXERCISES.

- IV. The morning session shall be opened with the reading of the Scriptures.

SCHOOL REGISTERS.

- V. Every school shall be furnished with a record book, in which shall be registered the names, ages, absence and tardiness of each scholar, and the daily average rank in recitation and deportment, and the register shall be open for the inspection of visitors.

ABSENCE, TARDINESS, DISMISSALS.

- VI. The names of pupils who are habitually absent or tardy shall be reported by the teachers to the parents, the Board of Education, and also to the Truant Officer. In every instance of absence or tardiness a written statement or personal explanation shall be required of the parent or guardian on the return of the pupil to school or at the next session, that the teacher may know whether the excuse is legitimate or otherwise. No pupil shall be allowed to leave school before its dismissal, except for satisfactory reasons, without a written or personal request from parent or guardian.

SCHOLARS LIMITED TO SCHOOL GROUNDS.

- VII. No pupil shall leave the school grounds during school hours, except by permission of the teacher.

CLEANLINESS OF SCHOLARS.

- VIII. Personal cleanliness must be required of every pupil. Teachers are expected to rigidly enforce this rule.

GOOD MORALS.

- IX. Good morals being of the first importance to the pupils, and essential to their highest progress in useful knowledge, instruction therein shall be given in each of the schools, and the principles of truth and virtue faithfully inculcated upon all suitable occasions. The pupils shall be carefully instructed to avoid idleness and profanity, falsehood and deceit, and every wicked and disgraceful practice, and to conduct themselves in an orderly, courteous and respectful manner; and it shall be the duty of the instructors, so far as practicable, to exercise a general inspection over them, in these regards, both in and out of school, and also while going to the same and returning home.

VENTILATION.

- X. Teachers shall give special attention to the ventilation and temperature of their school rooms, both in summer and winter, and see that the air is thoroughly changed at each recess and at the close of each school session.

SUPERVISION OF PRINCIPAL.

- XI. The Principal of the High School shall have general supervision of the buildings and yard in which he teaches, and shall be held responsible for all school property and for the general discipline of the schools in his building outside their respective rooms. He shall also assist the several teachers, when necessary, in the enforcement of rules of discipline and order; and it shall be the duty of the several teachers to cooperate with him in the discharge of his general duties.

CARE OF SCHOOL PREMISES.

- XII. Teachers shall be held responsible for any want of decorum or neatness about the school premises, and also for all damage done to the school property in their respective rooms during school hours. Any pupil who shall write any indecent language or draw any obscene or indecent pictures or representations on any part of the school premises shall be liable to expulsion.

BOOKS AND UTENSILS.

- XIII. Resident pupils are furnished with the books and utensils required in their respective classes, under the provisions of the statutes.

SUBJECTS TO BE EXPLAINED AND INSTRUCTION TO BE THOROUGH AND PRACTICAL.

- XIV. The teachers are required to illustrate and explain the subjects of study in such language and by such methods of their own as shall find the readiest access to the understanding of the pupils. And the instruction should be thorough, and made practical by showing to the pupils distinctly the various applications to the common affairs of life that may be made of the knowledge they are acquiring at school.

NON-RESIDENTS.

- XV. Non-residents shall not attend the schools of this town except by consent of the Board of Education and the payment of such tuition as shall be determined.

DETENTION OF PUPILS.

- XVI. No pupils shall be detained in the school room during a full session of the school; if deprived of recess for any cause, a reasonable absence shall be granted some time during the session.

GOVERNMENT OF THE SCHOOLS.

- XVII. The discipline of the schools shall be of parental character; such as a kind, judicious and faithful parent would exercise in the family. Corporal punishment shall be resorted to only when other means fail.

SUSPENSION OF PUPILS.

- XVIII. Scholars will be suspended from school for persistent disobedience, and when so suspended will not be allowed to return without permission from the Board of Education.

OBEDIENCE TO PRINCIPAL.

- XIX. All pupils in the High School building are expected to obey promptly and cheerfully all rules or regulations made by the Principal for the government of the school, and shall not in any way whatever use his or her influence over any pupil or pupils in the schools in the High School building in opposition to the rules or regulations made by the Principal, and for any violation of any part of any rule or regulation they shall be considered subject to expulsion.

ABSENCE FOR HALF A TERM.

- XX. Any pupil who shall from any cause absent himself from school for half a term shall not be allowed to rejoin his class without satisfactory evidence of proficiency in the studies pursued during the absence being presented to the Board of Education.

ENTERTAINMENTS.

- XXI. No pupil or class in any school shall give or advertise any entertainment under the auspices of the school without consent of the principal and each member of the Board of Education.

CONTRIBUTIONS, SUBSCRIPTIONS, ADVERTISEMENTS, ETC.

- XXII. No contributions or subscriptions shall be introduced into any school; and no person shall be allowed to occupy the time of a school by giving any notice or advertisement to the pupils or teachers, and no person not connected with the schools shall be permitted to address the pupils on any subject not pertaining to their studies, except by permission of the Board of Education.

PROMOTION.

- XXIII. Promotions will be made at the commencement of the school year, but any pupil who shall excel in scholarship may be promoted at any time upon passing a satisfactory examination by the Board of Education. In determining promotions a yearly average of 70 per cent. of correct answers shall be required for entry to the High School and for promotion from class to class therein. But no scholar shall be promoted who shall rank less than 50 per cent. in any study. Promotions in the Grammar Schools shall be determined in the same manner, excepting that the required average shall be 66 per cent. and not less than 50 per cent. in any study. In the High and Grammar schools daily recitations shall be ranked, and considered in finding the general average, equally with written examinations, and an oral examination shall be taken at the close of each school year, and considered likewise.

DIPLOMAS

- XXIV. Diplomas shall be awarded at the close of the school year to such pupils of the High School as shall have completed the prescribed course to the satisfaction of the Board of Education. Certificates of graduation will be awarded to all pupils who satisfactorily complete the course of study in the Grammar Schools, but no such certificates will be awarded to pupils whose average per cent. is less than 70 for the last year.

COPY OF REGULATIONS TO BE KEPT IN SCHOOL.

- XXV. A copy of the regulations shall be kept upon the desk in each school room, and teachers are required to read them before the school at the commencement of each term, and allow visitors to freely consult the same.

PUBLIC LIBRARY.

REPORT OF LIBRARIAN.

No special changes have been introduced in the management of the Public Library during the year now closed, and so far as we know there has been no cause for complaint from any of its patrons.

While your committee has endeavored to comply with the wishes of the reading public by purchasing such books as have been called for, thereby hoping to awaken a livelier interest in literature and to induce readers to aid in the selection of such books as they may desire, not considering it to be our right to decide what the public shall read; nevertheless it has been our aim to enhance the value of the Library by purchasing each year some standard works, and we most cordially invite all to join with us in the selection of books. Furthermore, we most earnestly request that the generous appropriation of money which has been given each year for the Library may be voted the coming year, for it is by the general diffusion of knowledge that every one, in proportion to its acquirement, is enabled to break the shackles of superstition and bigotry, and to exercise undaunted the noblest prerogative of manhood, the right to think and to act for himself.

Whole number of books catalogued, 2781.

J. LOW ELKINS, *Librarian.*
